Annual Demographic Information Reports

Jack Schillinger, Editor

Bonnie Dalebout, Editorial Assistant

INTRODUCTION

This publication provides a statewide summary of information contained in *Annual Demographic Information Reports* published for Washington State's twelve Service Delivery Areas (SDAs). It has been prepared for Job Training Partnership grant recipients and others involved in employment, training and economic development.

The report contains the most current data on population, civilian labor force, labor force characteristics, industry employment and income trends. It also includes historical tables and projections identifying specific population groups for the JTPA planning process.

Much of the characteristics data based on the sample portion of the 1990 Census are still not available. Consequently, some of the tables in this report still rely on the 1980 Census.

While this report emphasizes statistical data, it includes a narrative portion that provides analysis and background information.

For further information about data in this publication or other labor market data pertaining to Washington State, please contact **Ivars Graudins, Supervisor, Planning and Economic Development Information Section,** Labor Market and Economic Analysis Branch, Employment Security Department, Mail Stop KG-11, Olympia, WA, 98504, tel. (206) 438-4825.

INTRODUCTION i

STATEWIDE OVERVIEW 1

I - POPULATION

I-A: Total Population in Washington State by County, 1980 - 1991 6

I-B: Washington State Population by Age and Sex, Census 1980 and 1990 7

I-C: Total Population by Race, Spanish Origin and Minority Status 1980 and 1990 Census 8

II - CIVILIAN LABOR FORCE

II-A: 1. Resident Civilian Labor Force and Employment, 1983 - 1990 10
2. Resident Labor Force and Employment, 1990 Annual Averages 11

II-B: Civilian Labor Force, Employment and Unemployment Projections: 1991 and 1992 12

III - LABOR FORCE CHARACTERISTICS

III-A: 1. Characteristics of Job Applicants Registered with the Washington State Employment Security Department, July 1, 1990 to June 30, 1991 14
2. Characteristics of the Insured Unemployed in Washington State, July 1, 1990 to June 30, 1991 15

III-B: Unemployment Insurance Claimants by Occupation, July 1, 1990 to June 30, 1991 16

III-C: Occupations with Most Annual Average Job Openings, 1990-1995 52

IV - INDUSTRY EMPLOYMENT

IV-A: 1. Nonagricultural Wage and Salary Employment 1990 54
2. Nonagricultural Wage and Salary Employment 1989 55

IV-B: Washington State Industry Employment Projections 1991 and 1996 56

V - INCOME

V-A: Average Monthly Employment and Wages for Covered Employment by County and SDA - 1989 and 1990 58

V-B: Per Capita Personal Income for Washington State and Counties 1986 - 1989 59

VI - J.T.P.A. PLANNING DATA

VI-A: 1. Economically Disadvantaged Population Projections for 1991 62
2. Total and Economically Disadvantaged Populations by SDA, 1980 Census 63

VI-B: Public Assistance Recipients by Program, Sex, Age and Race - June 1991 64

VI-C: 1. School Year Dropout Rates for Grades Nine Through Twelve, 1989-90 School Year and Estimates by Race 65
2. Public and Private School Enrollment by Race, County and SDA, 1980-81 and 1990-91 66
3. Minority Enrollment Share in Public and Private Schools 1980-81 and 1990-91 School Years 67

VI-D: GED Certificate Recipients, 1989 and 1990 68

VI-E: Offenders Under Active Supervision by Service Delivery Area - Sept. 1991 69

VI-F: Education Attainment, School Enrollment and Language Used, 1980 Census ... 72

VI-G: Labor Force Status for Persons Age 16-21 by Education, 1980 Census 73

VI-H: Noninstitutional Persons 16-64 by Work Disability Status, 1980 Census 74

VI-I: Veteran Status, Mobility, Language Usage and National Origin, 1980 Census 75

APPENDIX

I: Poverty Income Guidelines 80
II: Lower Living Standard Income Levels 81
III: Labor Surplus Areas in Washington State 82
IV: Distressed Counties in Washington State 83

Statewide Overview

Geography

Washington state is located in the northwest corner of the 48 contiguous states. It has a total land area of 68,192 square miles of which 1,215 square miles are inland water areas. It has seven distinct geographic areas: the rugged and relatively undeveloped Olympic Peninsula area in northwest Washington; the inland

waterway area of the Puget Sound region, which is the economic center of the state; the forested southwest area; the lofty Cascade Mountain area that divides the state into two distinct climate zones; the relatively dry and sparsely populated inland Okanogan Highlands; the irrigated farmland area of the Columbia Basin; and the productive dryland agricultural region of the Blue Mountain area in southeast Washington.

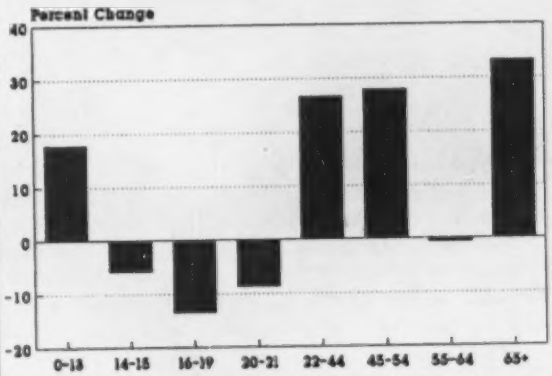
Mount Rainier, the highest elevation in the state (14,408 feet), is located in Pierce County. Mount St. Helens, which erupted explosively on May 18, 1980, is located in Skamania County. This is one of the least populated areas of the state and is heavily dependent on the forest products industry.

The Columbia River is a prominent feature in the state's geography. It starts in Canada and winds for 1,300 miles to the Pacific Ocean: south through central Washington and then west forming most of the state's southern border with Oregon. As it heads west, it has cut deep gorges through the Cascade Mountains and the coastal ranges. The Columbia River is the greatest source of hydroelectric power in the United States and provides much of the water for agriculture in the Columbia Basin.

Population

Washington state's population increased by 17.8 percent between the 1980 amd 1990 Census enumerations, from 4,132,353 to 4,866,692. Approximately 46 percent of the increase (over 300,000 persons) stemmed from net migration, most of which occurred during the expansionary period of 1985-1990. Total population edged past the five million mark in 1991 with 5,000,400 residents, according to estimates from the state Office of Financial Management. As those

Washington Population by Age
Percent Change 1980-1990 Census



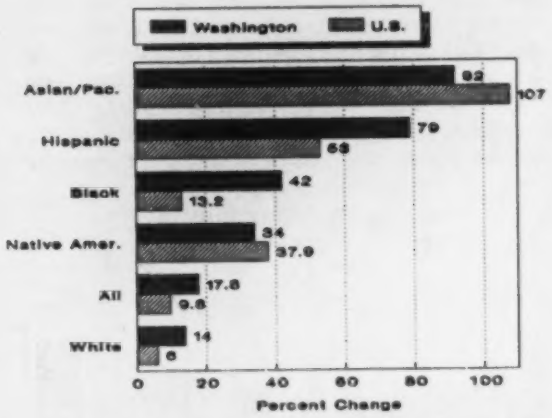
born during the Baby Boom era age past what are considered the prime migration ages (21-35), net migration is expected to diminish slightly.

The 1990 Census also brought to light a marked decline in the youth population, which is likely to adversely affect recruiting and wage levels for entry level workers: the 14-15 cohort dipped 5.7 percent while the number of those 16-19 and 20-21 fell 13.4 percent and 8.6 percent, respectively (see graph above and Table I-B). On the other hand, there was a significant increase (27.9 percent) in the 45-54 group, symptomatic of a nationwide middle-ageing trend.

During the past decade the state has become much more ethnically diverse: Asian and Pacific Islanders grew 92 percent to 203,668; Hispanics 79 percent to

214,570; Blacks 42 percent to 146,000; Native Americans 34 percent to 76,397; and Whites 14 percent to 4,221,622. Since 1980 the minority share has increased from 9.8 percent to 13.3 percent of the total population.

How Washington has grown From 1980 to 1990 Census



Washington's 1990 population indicates a slight preponderance of incorporated over unincorporated areas (50.7 versus 49.3 percent). Cities and towns with only 2 percent of the state's total land area account for almost 51 percent of the total population; the population density is nearly 2,100 persons per square mile compared to 36 per square mile in the unincorporated areas.

Labor Force

The civilian labor force increased by 26.1 percent between 1980 and 1990, more than eight percentage points higher than the population growth (due in large part to increased labor force participation by women). Between 1990 and 1991 the labor force is expected to grow negligibly (0.1 percent) owing to recessionary factors and then increase modestly (1.7 percent) in 1992. The 1990s are also likely to witness a slowing of labor force growth to 1.9 percent annually (compared with 2.4 percent in the 1980s and 3.5 percent in the 1970s).

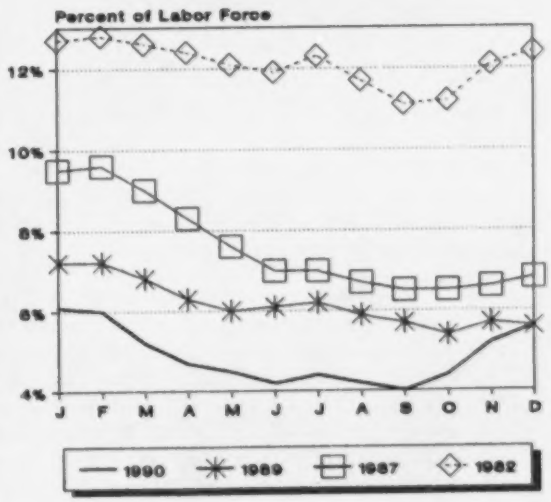
The labor force participation rate is also likely to rise fractionally (to 69.8 percent overall) as Washington's labor force reaches a total of 2,548,820 in 1992. The male rate has been projected to dip from 79.6 to 79.3 percent, while that for females is expected to rise from 60.4 to 61.2 percent. In 1975, the participation rate for women was only 46.9 percent.

The labor force composition by age for 1990 has been estimated at 5.7 percent for ages 16-19; 10.4 percent for 20-24, 27.9 percent for 25-34, 28.2 percent for 35-44, 16.7 percent for 45-54, 8.6 percent for 55-64, and 2.6 percent for those 65 and older. The age cohort 35-44 shows the highest labor force participation rate (LFP), 88.4 percent. For men in that age bracket, the LFP is 97.5 percent, while that for women is 79.4 percent.

Between 1990 and 1991, the unemployment rate is expected to climb from 4.9 to 6.6 percent, with 165,400 unemployed. In 1992, while the number of unemployed is projected to grow to 171,900, the rate is forecast to decline to 5.7 percent, reflecting greater percentage growth in the labor force.

Occupational projections for 1990-1995 indicate that the largest number of job openings due to growth

Washington State Unemployment 1990, 1989, 1987, 1982



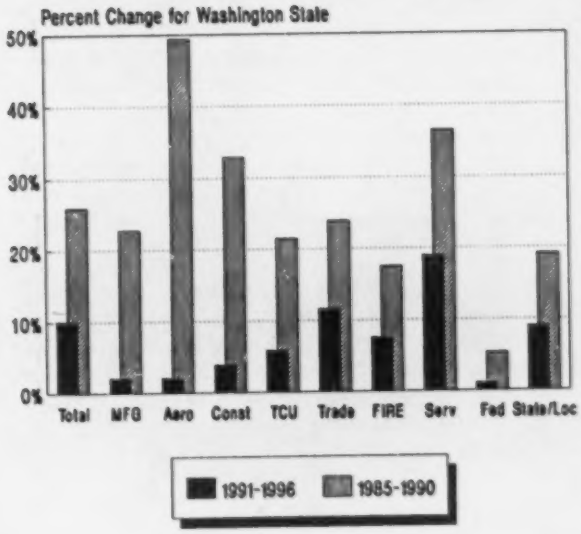
and labor force separations will occur in Salespersons, Retail (4,660 openings), with the nine next largest in General Managers and Top Executives (2,892), General Office Clerks (2,697), Janitors and Cleaners (2,397), Bookkeeping, Accounting and Auditing Clerks (2,261), Registered Nurses (2,190), Waiters and Waitresses, All Other Secretaries (2,044), Cashiers (2,035) and Receptionists, Information Clerks (1,577).

Labor force separations will account for the majority of openings, but new jobs arising predominantly from growth will prevail with Registered Nurses, Waiters and Waitresses, Cashiers, and Nursing Aides, Orderlies and Attendants (see Table III-C).

Industry Employment

With a view to 1991 and 1992, employment growth in manufacturing and nonmanufacturing sectors of the economy is likely to be restrained in comparison with 1989-1990.

Industry Employment Projections
1991-1996 vs. 1985-1990 Actual



Similarly, the longer-term outlook (1991-1996) is not likely to replicate the stellar performance of the 1985-1990 period when total nonagricultural employment climbed by 26 percent and aerospsace, among others, shot up by 49.4 percent (see graph above). However, while significantly less auspicious, growth rates for 1991-1996 still look to be solid in sectors of manufacturing, such as printing and publishing (+11.9 percent), other nondurables (+15.4 percent), industrial machinery (+10.0 percent), and electrical equipment and instruments (+11.0 percent). Trade and services are also projected to post sound gains, expanding by 11.7 and 19.0 percent respectively, but the pace will not be like the 1987-to-1989 period when these two divisions generated the bulk of expansion in nonagricultural employment. Also growing will be state and local government (+9.0 percent), reflecting absorption of responsibilities from a waning federal role (only +1.0 percent) and growing population pressures.

In the middle of the growth spectrum will be transportation and public utilities (+5.8 percent) and construction (+3.9 percent) while aircraft and parts will occupy the lower end, showing a rise of 2.1 percent (to 119,000) to work down an order backlog of approximately 1,800 planes.

On the downside for 1996, through a combination of competitive pressures (foreign and domestic), automation and technological efficiencies and governmental actions (to preserve forests and protect endangered species), lumber and wood products is projected to decline by 12.5 percent, and paper and allied products, by 4.5 percent (see Table IV-B).

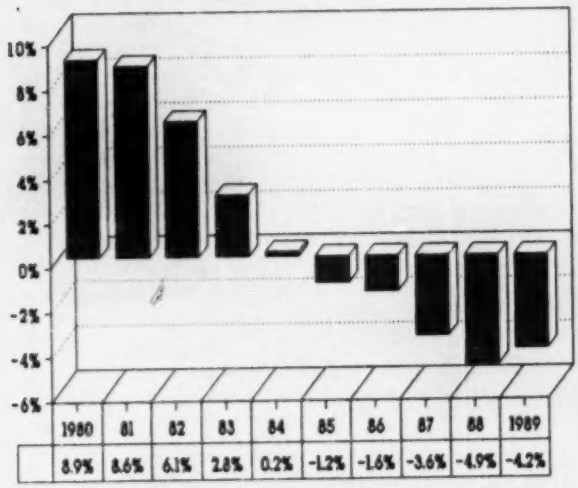
Other industries such as shipyards and primary metals – which were so important in past years – are likely to play a diminishing role in Washington state's economy.

Income and Wages

Per capita income for 1990 grew to $18,775, a 5.6 percent increase over 1989's revised figure of $17,784, according to estimates from the Bureau of Economic Analysis. The state's 1990 income ranked 16th among the states and was nearly identical to the national average of $18,691. For more than four decades

Washington State

Washington Average Annual Pay: 1980-1989
Percent Above/Below National Average



Washington's per capita income had surpassed the national average (by as much as 11 percent in 1966), but in the 1980s, particularly after the 81-83 recession, it started on a downward trend and in 1988 actuallly dipped below the U.S. average. An analysis by the State Office of Financial Management attributes the decline to losses in high wage jobs in lumber, construction, steel and shipbuilding as well as to decreased earnings in a variety of nonmanufacturings sectors, including transportation, communications and public utilities (TCU), eating and drinking establishments, finance, insurance and real estate (FIRE), business services, health services and state and local government.

Washington's slide in per capita income occurred primarily in wages – which represent the largest component of per capita income (72 percent in 1989). In 1979, real earnings (expressed in constant 1982 dollars) averaged $19,018; in 1987, they fell to $17,369, meaning the average worker took a loss of almost $2,000 – which is the shortfall on the per capita income ledger between 1979-1987.

In 1990, the statewide average wage rose 5.0 percent from $1,800 to $1,890 per month (see Table V-A). At $2,180 per month, King County posted the highest average wage, while Douglas County ($1,070) registered the lowest.

One should note, however, that the 1989 and 1990 averages are not strictly comparable. In 1990, Unemployment Insurance coverage was expanded in agriculture, and thus there are more farm workers (and their wages) in the 1990 averages.

JTPA Planning Data

In 1991, it is estimated that there will be about 601,790 economically disadvantaged individuals in Washington state (see Table VI-A 1). Of this number, female will account for 61.1 percent, and three quarters (75.3 percent) will be White. Blacks make up the largest minority proportion of the economically disadvantaged in King and Pierce counties (12.5 and 12.1 percent), while Hispanics account for 31.6 percent in SDA IX.

State public assistance recipients totalled 135,412 in program year 1991. About 89 percent of this total were in the two categories of Aid to Families with Dependent Children (which includes Family Independence Program participants). The majority of recipients were female (72.0 percent) and in the 22-44 age cohort (65.0 percent). By race/ethnic group, nearly three-quarters were White (74.0 percent), followed by Black, Asian, Hispanic and Native American (see Table VI-B).

The largest number of school dropouts was in King County (3,970), of which the vast majority were White (73.6 percent). The highest rate of dropouts, however, was reported in Pierce County (9.2 percent), while the lowest (1.0 percent) was registered in Lincoln County (see Table VI-C1). In general, the agricultural regions of SDA X had the lowest overall dropout rate (2.6 percent). By comparison, the statewide rate was 6.3 percent, or 14,525 out of a total of 230,140.

Between the 1980-81 and 1990-91 school years, minority enrollment statewide increased 59.4 percent in public schools and 61.0 percent in private schools, while total enrollment grew only 10.9 percent and 12.9 percent, respectively (see Table VI-C 2).The Service Delivery Area with the largest minority enrollment share for 1990-91 was the Tri-Valley Consortium with 36.3 percent (Table VI-C 3). ♦

POPULATION BY RACE, SPANISH ORIGIN AND MINORITY STATUS IN WASHINGTON STATE 1980 AND 1990 CENSUS

1980 CENSUS	Number	Percent
Total Population	4,132,156	100.0%
White	3,779,170	91.5%
Black	105,574	2.6%
American Indian, Eskimo & Aleut	60,804	1.5%
Asian and Pacific Islanders 1/	110,052	2.7%
Other Races 2/	76,556	1.8%
Spanish Origin 3/	120,016	2.9%
Minority Group 4/	406,278	9.8%
1990 CENSUS		
Total Population	4,866,692	100.0%
White	4,308,937	88.5%
Black	149,801	3.1%
American Indian, Eskimo & Aleut	81,483	1.7%
Asian and Pacific Islanders	210,958	4.3%
Other Races 2/	115,513	2.4%
Spanish Origin 3/	214,570	4.4%
Minority Group 4/	645,070	13.3%

1/ Numbers have been revised to include additional Asians and Pacific Islanders who were previously counted in the "Other Races" category.

2/ The Other Races category is primarily a count of persons who marked "Other Race" on the Census questionnaire and wrote in entries such as Cuban, Puerto Rican, Latino, Mexican, Dominican, etc.

3/ Spanish Origin is not a race category. Persons of Spanish origin may be of any race and are counted in the other racial categories shown above.

4/ Minority Group consists of all races other than white plus those whites of Spanish origin.

Note: Percentage detail may not add to totals because of rounding.

Table III-B
WASHINGTON STATE
UI CLAIMANTS BY OCCUPATION
1990-1991

The following list shows a count of Unemployment Insurance (UI) claimants resident in Washington State (determined by ZIP Code) who had an active claim under any program or entitlement during the period July 1, 1990 - June 30, 1991. "Exhaustees" are those who exhausted regular benefits during this period. "Average Weeks Claimed" is computed from the total, not necessarily continuous, weeks claimed during this 52-week period. Occupations for which there are fewer than 10 claimants have not been individually identified but are included in the totals.

D.O.T. CODE	OCCUPATION	TOTAL CLAIMANTS	NUMBER OF EXHAUSTEES	AVERAGE WEEKS CLAIMED
TOTAL, ALL OCCUPATIONS		317,872	47,593	13.6
PROFESSIONAL, TECHNICAL AND MANAGERIAL OCCUPATIONS		41,134	6,946	13.8
001.061-010	ARCHITECT	161	21	13.8

* Employment and Wages are for establishments covered by the Employment Security Act and Federal employment covered by Title 5, U.S.C. 85. Indicated monthly averages have been computed from revised data for 1989 preliminary data for 1990.

** Washington State totals include some employment and wages not assigned to a specific county.

*** Excludes industries 01 and 02 (Agricultural Production) which were affected by increased UI coverage in 1990.

Note: Estimates of the 1991 economically disadvantaged population by sex, age and race were computed by using a modified census-share methodology. The 1980 Census ratios of the economically disadvantaged population, by age, were applied to the projected 1991 populations in each age group for each SDA. The 1991 estimates of the economically disadvantaged population by sex and race were made using 1980 Census "below poverty" ratios. These ratios were adjusted by the projected population changes by sex and race from 1980 to 1991 and the resulting estimates were then forced to the previously computed 1991 totals. Also, detail may not add to indicated totals because of rounding.

* This table has been revised to shift Walla Walla County from SDA XI to SDA X.

** All race categories exclude Hispanics who are shown as a separate group.

GLOSSARY OF TERMS

Economically disadvantaged – for JTPA purposes, an individual who is a member of a family receiving public assistance, or whose family income does not exceed either the poverty level as determined by the Office of Management and Budget, or 70 percent of the Lower Living Standard Income Level.

Employed – is a term used to describe a person 16 years or older with a job. People are considered employed if they did any work at all for pay or profit during the reference period. This includes all part-time and temporary work as well as regular full-time year-round employment.

Covered employment – employment in an industry that comes under coverage of the respective state's unemployment insurance program. Generally, most states exclude from coverage a significant number of workers in agriculture, the self-employed, some student employees, full commissioned sales-workers, employees of religious organizations, and elected and appointed officials.

Job Training Partnership Act (JTPA) – a federal act, passed in 1982, designed to establish programs to prepare youth and unskilled adults for entry into the labor force and to provide job training for economically disadvantaged individuals and others with serious barriers to employment. It is administered in a partnership of Private Industry Councils (PICs) and local elected officials within Service Delivery Areas (SDAs) designated by the Governor.

Labor area – consists of a central city and the surrounding territory within commuting distance. It is an economically integrated geographical unit within which workers may readily change jobs without changing their residence. In Washington state, labor areas are composed of one or more counties.

Labor force – is the sum of all employed and unemployed persons 16 years and older within a labor area. The total labor force is made up of members of the Armed Forces and the civilian labor force (which consists of employed and unemployed civilians). ➡

Metropolitan Statistical Area (MSA) – an area qualifies as an MSA in one of two ways: it must either have a city of at least 50,000 population or an urbanized area of at least 50,000 and a total metropolitan area population of at least 100,000. MSAs are defined in terms of counties. In addition to the county containing the main city, an MSA may include additional counties which have close economic and social ties to the central city.

Minority – as used in this report, refers to all races other than white and those whites who are of Spanish origin.

Nonagricultural wage and salary employment – place of work employment does not include self-employed, unpaid family workers, domestics, or agricultural workers. Conceptually, this is probably the most consistent economic time series available to compare different labor markets over an extended period of time.

Private Industry Council (PIC) – a group of individuals, within each JTPA SDA, representing private business, organized labor, educational agencies, rehabilitation agencies, community-based organizations, economic development agencies and the public employment service. Their major duties are to provide policy guidance for JTPA activities and the oversight of those activities.

Service Delivery Area (SDA) – a designated area within Washington that receives JTPA funds based upon a formula and uses those funds to establish employment and training programs. Currently Washington State is divided into 12 SDAs.

Unemployed – describes persons 16 years and older who have actively looked for work, are currently available for work, and do not have a job at the same time.

Unemployment rate – the number of unemployed persons expressed as a percentage of the civilian labor force.

Veteran – refers to a person who has served but is not currently serving in the Armed Forces of the United States. Vietnam Era veterans are those who served in the Armed Forces between August 5, 1964 and May 7, 1975.

APPENDIX - I

POVERTY INCOME GUIDELINES FOR ALL STATES (EXCEPT ALASKA AND HAWAII) AND THE DISTRICT OF COLUMBIA

Effective February 20, 1991

The revised 1991 poverty income guidelines, required by section 652 and 673 (2) of the Omnibus Reconciliation Act of 1981, are indicated below. These guidelines are intended for use as an eligibility criterion for a number of federal programs. Specific questions about applying these guidelines and definitions to a particular program should be referred to the office responsible for that program.

Size of Family Unit	New 1991	Old 1990
1	$6,620	$6,280
2	8,820	8,420
3	11,140	10,560
4	13,400	12,700
5	15,660	14,840
6	17,920	16,980
7	20,180	19,120
8	22,440	21,260
For each additional family member add:	$2,260	$2,140

FAMILY - A family is a group of two or more persons related by birth, marriage, or adoption who reside together; all such related persons are considered as members of one family.

INCOME - Refers to total annual cash receipts before taxes from all sources. Income includes money wages and salaries before any deductions, but does not include food or rent in lieu of wages. Income also includes net receipts from nonfarm or farm self-employment. Also included are regular payments from social security, railroad retirement, unemployment compensation, workers' compensation, strike benefits from union funds, veterans' benefits, public assistance, training stipends, alimony, child support and military family allotments or other regular support from an absent family member or someone not living in the household; private pensions, and regular insurance or annuity payments; and income from dividends, interest, rent, royalties, or periodic receipts from estates or trusts. For eligibility purposes, income does not include the following money receipts: capital gains; any assets drawn down as withdrawals from a bank, the sale of property, a house, or a car; tax refunds, gifts, lump-sum inheritances, one-time insurance payments, or compensation for injury. Also excluded are noncash benefits, such as the employer-paid or union-paid portion of health insurance or other employee fringe benefits, food or rent received in lieu of wages, the value of the food and fuel produced and consumed on farms, the imputed value of rent from owner-occupied nonfarm or farm housing, and such federal programs as Medicaid, Food Stamps, or public housing.

LMEA 4/25/91

APPENDIX - II

SEVENTY PERCENT OF LOWER LIVING STANDARD INCOME LEVELS (LLSIL)

Effective May 28, 1991

Updated 1991 Lower Living Standard Income Levels (70 percent) are indicated below for metropolitan, non-metropolitan, and the Seattle/Tacoma areas.

Size of Family	Metropolitan	Non-Metropolitan	Seattle/Tacoma
1	$ (5,800)	$(5,750)	$(5,990)
2	9,500	9,420	9,810
3	13,050	12,930	13,470
4	16,100	15,960	16,620
5	19,000	18,840	19,620
6	22,220	22,030	22,940

For family units with more than six members, add $3,220 for each additional member in a metropolitan area, and $3,190 for each additional member in a non-metropolitan area.

For units with more than six members in the Seattle/Tacoma CMSA, add $3,320 for each additional member.

Non-metropolitan levels apply to places with populations under 50,000 for purpose of these determinations. The Department of Labor has stated that the publication of these figures is only for the purpose of determining JTPA participant eligibility.

The figures in parentheses in each column for a family unit of one indicate that these figures are lower than the corresponding figure ($6,620) from the Federal Office of Management and Budget (OMB) for the poverty income guidelines (see Appendix I). Because the rule is to use the higher of either 70 percent of the LLSIL or the OMB poverty guidelines, the figure $6,620 should be used rather than the figure in parentheses.

Any questions regarding this information bulletin should be directed to the SDA liaison representative assigned to the Service Delivery Area.

LMEA 7/91

APPENDIX - III

LABOR SURPLUS AREAS IN WASHINGTON STATE

October 1, 1991 through September 30, 1992

Labor Surplus Areas are designated by the U.S. Department of Labor. Employers located in these areas are eligible for preference in federal contract bids if they agree to perform at least 51 percent of the contract work within such areas. The purpose of the labor surplus area preference is to help guide a portion of the government's procurement dollars into those areas with the highest unemployment.

The labor surplus area classification is based on the area's unemployment rate for the previous two calendar years. The reference period used for this list was January 1989 through December 1990. To be included on this list, an area must have had an average unemployment rate of at least 6.6 percent during the two-year period.

The following areas in Washington State have been designated as "labor surplus areas" effective through September 30, 1992.

ELIGIBLE LABOR SURPLUS AREAS	CIVIL JURISDICTIONS INCLUDED
Adams County	Adams County
Balance Of Benton County	Benton County *Less* Kennewick City, Richland City
Chelan County	Chelan County
Clallam County	Clallam County
Columbia County	Columbia County
Balance Of Cowlitz County	Cowlitz County *Less* Longview City
Douglas County	Douglas County
Ferry County	Ferry County
Franklin County	Franklin County
Grant County	Grant County
Grays Harbor County	Grays Harbor County
Kennewick City	Kennewick City In Benton County
Kittitas County	Kittitas County
Klickitat County	Klickitat County
Lewis County	Lewis County
Longview City	Longview City In Cowlitz County
Mason County	Mason County
Okanogan County	Okanogan County
Pacific County	Pacific County
Pend Oreille County	Pend Oreille County
Skagit County	Skagit County
Skamania County	Skamania County
Stevens County	Stevens County
Wahkiakum County	Wahkiakum County
Walla Walla City	Walla Walla City In Walla Walla County
Yakima City	Yakima City In Yakima County
Balance Of Yakima County	Yakima County *Less* Yakima City

APPENDIX - IV

DISTRESSED AREAS IN WASHINGTON STATE
April 1991

For purposes of special assistance consideration, counties that have experienced a **three-year average†** unemployment rate that is 20 percent above the state's average rate are designated as *distressed counties*. Based on new legislation passed in 1988, Metropolitan Statistical Areas are also considered *distressed* if their **one-year average** unemployment rate is 20 percent above the statewide average.

According to these two sets of criteria, there are now 23 counties and two MSAs that are considered *distressed areas*. All of the counties listed below have a **three-year average unemployment rate of 6.8 percent** or higher, while the MSAs [indicated in brackets below] have a **one-year average of 5.8 percent** or higher.

The distribution of these counties and MSAs by JTPA Service Delivery Area is as follows

	SERVICE DELIVERY AREA	Distressed County [MSA]	Unemployment Rate
I	The Olympic Consortium	Clallam	7.9
II	The Pacific Mountain Consortium	Grays Harbor	9.6
		Lewis	8.6
		Mason	6.9
		Pacific	8.9
III	Northwest Service Delivery Area	Skagit	7.9
VII	S.W. Washington Consortium	Cowlitz	7.5
		Skamania	17.0
		Wahkiakum	8.2
VIII	The Pentad Consortium	Adams	11.3
		Chelan	9.4
		Douglas	7.5
		Grant	9.5
		Okanogan	11.3
IX	Tri-Valley Consortium	Kittitas	8.6
		Klickitat	12.5
		Yakima	10.8
		[Yakima MSA]	[9.7]
X	Eastern Job Training Partnership	Columbia	12.1
		Ferry	10.5
		Pend Oreille	10.8
		Stevens	9.1
XI	Benton-Franklin SDA	Benton	7.0
		Franklin	11.1
		[Rich-Kenn-Pasco MSA]	[6.9]

† The time frame for this average was Jan. 1988-Dec. 1990.
